BROKE HIS LEG.—Some excitement was created at the intersection of Fair-fax and Prince streets last night by the cries of a little boy named Charles Lloyd whose leg had been broken. The child is about seven years old and was in act of going out of Mr. J. F. Heisley's store when, he claims, he was pushed by Noble Brooks, a small colored boy, who is employed in the store. Mr. Heisley was in the back part of his store at the time, and supposing the child had fallen and was not seriously hurt, sent an apple to him and requested some one to see that he went to his hon s, a few doors away. When, however, he learned his leg was broken he gave him all the attention possible and saw that he was taken home. Dr. Klipstein was summoned, and he found that his left leg was broken in two places below the knee and he rendered the necessary surgical aid. A number of people gath ered and considerable indignation was expressed toward Brooks, who, it was alleged, had pushed the child from the door. The white boy, it seems, had a box in his arms at the time, and he charged that the accident was due to the colored boy, while the latter asserted that the child fell out of the door. Brooks was arrested, but when the case was called this morning no witnesses were present and the trial had to be postponed.

ACCIDENT TO A MOTORMAN .- Mr. Frank Hall, motorman on the Wash ington, Alexandria and Mount Vernon Railway, was the victim of a painful accident at the Four-mile-run power house at an early hour this morning. While in this position the current was applied from the power house and the crank revolved immediately with terrific force, and its revolution struck Mr. Hall in the face, breaking his jaw bone in two places, crushing his chin and knocking im senseless. He was picked up and brought to his house in this city where Dr. Klipstein attended him. After his face had been dressed he soon appeared on the streets again, his injuries, though painful, not being of a very serious nature.
